

Forms Design Using Zoho Creator

AIM

To create and manage student-related forms using **Zoho Creator** for storing student profile, academic, guardian contact, and course enrollment information.

PROCEDURE

1. Create a new application named **Student Management System** in Zoho Creator.
2. Create the following four forms:
 1. **Student Profile** – to store basic student details such as Student ID, Name, Date of Birth, Gender, Email, Phone Number, and Address.
 2. **Academic** – to store academic details such as Student ID, Department, Semester, CGPA, Attendance, and Academic Year.
 3. **Guardian Contact** – to store guardian information such as Guardian Name, Relationship, Contact Number, Email, and Address.
 4. **Course Enrollment** – to store course enrollment details such as Student ID, Course Name, Course Code, Semester, Enrollment Date, and Faculty Name.
3. Add suitable field types such as Single Line, Number, Email, Phone, Date, Dropdown, and Radio fields.
4. Configure the required fields and arrange the fields appropriately.
5. Enter sample student records into each form.
6. Preview and verify all the forms to ensure that the data is entered and stored correctly.

OUTPUT

The screenshot displays the Zoho Creator form design interface for an application titled "Student Management System Academic Records". The interface is divided into three main sections: a left sidebar for field selection, a central workspace for field arrangement, and a right sidebar for field configuration.

Left Sidebar (Basic Fields): Contains icons and labels for various field types: Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down.

Central Workspace: Shows a vertical stack of fields being added to the form. Each field is represented by a card with an icon and a label, followed by a red asterisk indicating it is a required field. The fields shown are: Student Name, Email, Program Name, Enrollment Date, Academic Level, GPA, Semester, course code, year, and Status.

Right Sidebar (Field Properties): Provides configuration options for the selected field, "Student Name". It includes sections for:

- Field name:** A text input field containing "Student Name".
- Field link name:** A text input field containing "Student_Name".
- View Field References:** A link to view references.
- Validation:** A checkbox for "Mandatory" which is checked.
- Display Fields:** A section with checkboxes for "Prefix", "First Name", "Last Name", and "Suffix". "First Name" and "Last Name" are checked.
- Data Privacy:** A section with a "Data Privacy" link.

The bottom of the interface features a status bar with a "Trial expires in 8 days" message, an "Upgrade" button, and a "Get started faster!" link.
