

Creating User Roles and Configuring Permissions in Zoho Creator

Aim

To create different user roles in Zoho Creator and configure appropriate permissions for each role to control access to the Student Management System.

Procedure

1. Open the Student Management System application in Zoho Creator.
2. Navigate to Users and Control → Roles.
3. Click Add Role to create a new user role.
4. Create the required roles, such as:
 - Administrator
 - Faculty
 - Student
5. Assign the appropriate permissions to each role.
6. Configure access to forms, reports, pages, and other application components.
7. Assign users to their respective roles.
8. Save the role and permission settings.
9. Log in or test the application with different user roles.
10. Verify that each user can access only the features permitted for their role.

Role and Permission Setup

Role	Access
Administrator	Full access to forms, reports, and application data
Faculty	Add and view student information; limited modification access
Student	View own student information and submit enrollment details

Help

The image shows two screenshots of the Zoho Creator interface. The top screenshot is the 'Add User' dialog box. It has a sidebar on the left with categories: DEVELOP (Applications, Microservices), DEPLOY (Environments, Mobile, Portal), and MANAGE (Users, Organization, Governance, Metrics, Operations, Billing). The 'Add User' dialog contains fields for 'Email Address' (nithishraj.l.2024.cse@rajalakshmi.edu.in) and 'Name' (nithishraj10). There is a checkbox for 'Send Notification Mail' which is checked. Below this is the 'Add to Application' section with two tabs: 'Applications as User' (selected) and 'Applications as Developer'. Under the 'Applications as User' tab, there are three dropdown menus: 'Application Name' (Student Management S...), 'Role' (Faculty), and 'Permission' (Faculty Permission). There is a '+ Add Application' link below these. At the bottom right of the dialog are 'Add User' and 'Cancel' buttons. The bottom screenshot shows the 'All Users' page in Zoho Creator. It has the same sidebar. The main content area shows a header 'All Users' with a dropdown arrow, a description 'A user is an individual who has been granted access to your solutions through a role-based access control mechanism. [Learn more](#)', and a '+ Add User' button. Below this is a search bar and a 'Filter' button. A table lists the users:

Name	Email Address	Status
 NITHISH RAJ L SUPER ADMIN	nithishraj.l.2024.cse@rajalakshmi.edu.in	Active
 nithishraj10	nithishraj2610@gmail.com	Active

The bottom of the screenshot shows a footer with 'Trial expires in 15 days', an 'Upgrade' button, and a 'Help' button.

Result

Thus, different user roles and permissions were successfully created and configured in Zoho Creator to control access to the Student Management System.
